- "Total taxable value" includes the taxable value of all real property in the subdivision as indicated on the tax list most recently certified for collection and estimates of the taxable value of public utility personal property for the first year the levy will be collected as set forth on the worksheets prescribed in conjunction with this form. If the subdivision is located in more than one county, the home county auditor (where the greatest taxable value of the subdivision is located) shall obtain the assistance of the other county auditors to establish the total tax valuation of the subdivision.
- For purposes of this certification, "subdivision" includes any agency, board, commission or other authority authorized to request a taxing authority to submit a tax levy on its behalf. See R.C. 5705.01(A) & (C).
- "Levy type" includes the following: (1) additional, (2) renewal, (3) renewal with an increase, (4) renewal with a decrease, (5) replacement, (6) replacement with an increase and (7) replacement with a decrease levies.
- In completing Lines 1 and 4 of this form, mills should be identified in whole numbers, i.e., 5 mills, rather than as a fraction of a dollar, i.e., \$0.005. This expression is consistent with the prior practice of identifying mills in whole numbers per \$1 of valuation.
- "The county auditor's appraised value" means the true value in money of real property. R.C. 5705.01(P).
- For any levy or portion of a levy, an estimate of the levy's annual collections, rounded to the nearest one thousand dollars, which shall be calculated assuming that the amount of the tax list of the taxing authority remains throughout the life of the levy the same as the amount of the tax list for the current year, and if this is not determined, the estimated amount submitted by the auditor to the county budget commission. R.C. 5705.03(B).
- Please file this certificate with the subdivision as soon as possible, so the taxing authority can pass a resolution to proceed not later than 90 days before the election.

Enter tax valuation of all Class I real property (residential and agricultural property) included on the tax list most recently certified for collection. Line 2. Under “current rate,” enter the existing effective tax rate in mills for Class II. Under “increase,” enter the requested gross increase rate in mills. Enter tax valuation of all Class II real property (all other real property) included on the tax list most recently certified for collection. Enter the estimated valuation of public utility personal property for the first tax year the levy will be assessed against public utility personal property. To determine the public utility valuation, please refer to the values in the appropriate spreadsheet available at:

www.tax.ohio.gov/channels/government/services_for_local_govts.stm

Note: Public utility personal property taxes are assessed at the same time as real property taxes, except, beginning in 2007, telecommunications property. The public utility values in the spreadsheets reflect the shift of telecommunications property to general business property.

Multiply the sum of the current rate and increase rate times the tax value, then divide by 1,000 to get tax revenue in dollars.

Line 4. Under “current rate,” enter the existing gross tax rate in mills. Under “increase,” enter the requested gross increase rate in mills. Using the chart below, enter the estimated general personal property value for the first general personal property tax year the levy will be collected. (**Note:** If the first year for which the levy will be assessed against real property is tax year 2008, then the first tax year that levy will be assessed against personal property will be 2009.) Since telecommunica-

tions companies are the only general businesses that are still liable for the personal property tax, and then only for tax years 2009 and 2010, only the estimated value of the telecommunications property should be entered on this line. No entries should be made on this line for levies that will first be effective for real property for tax year 2010 or thereafter.

Multiply the sum of the current rate and increase rate times the tax value, then divide by 1,000 to get tax revenue in dollars.

Line 5. Enter the amount of the reimbursement payment (if any) the subdivision will receive for a qualified renewal levy for the first general personal property tax year the proposed levy will be or would be in effect. (**Note:** If the first year the proposed levy will be assessed against real property is tax year 2008, then the first year that levy will be assessed against personal property will be 2009.)

For personal property tax years 2007-2010, reimbursement amounts for qualifying levies are posted on the Department of Taxation's Web site. For tax years 2011-2017, potential reimbursement amounts will be posted as those tax years are imminent, but reimbursement payments for renewals of qualified levies for those tax years will only be made to the extent the original qualifying levy existed. No reimbursement is available for the increased portion of the renewal levy.

Line 6. Add the revenue amounts in lines 1 through 5 and enter total here. Place this amount on the line provided in Item 2 on form DTE 140R.
